

Physics 152L (1104)

Spring-2011

Syllabus

General Information

Instructor: Andrew Schmitz

Email: s264445@gmail.com

Office: LP 110

Mail box: physics TA mailboxes (Andrew Schmitz)

Office Hours: Wednesday 12PM-1PM (and by appointment)

Lab meeting time: Tuesday 10AM-12PM

Class Description and Objectives:

The purpose of the physics laboratory is to allow student to witness the concepts and physical laws that are introduced in lecture. You will also be exposed to elementary laboratory techniques. Every class will have a short lecture introducing the procedures, concepts, formulas and instructions relevant to the experiment. The lecture will also cover what is expect from you and how to write-up your lab-report, please don't be late. Attendance and participation is expected. Experiments will be performed in groups however final lab-reports have to be written-up individually.

Course Requirements:

Lab Etiquette

- No FOOD/DRINKS/SMOKING/APPLYING OF COSMETICS in labs
- Please turn off your cell phone
- You and your partners must clean up and shut off equipment after you are finished with your lab. Failing to do so can affect your grade.
- Please report all damage equipment so it can be replaced.

Lab reports:

- There will be 11 labs. Only 10 of the 11 will be graded allowing the students to drop the lowest grade.
- You are expected to read the labs before class and have a printed copy of the lab with you in the class. This will help you perform the experiment and can serve as your data sheet.
- Your will be responsible to get your individual data sheet signed by the instructor before you leave the lab.
- Lab reports are due the following class period at the beginning of each class. Each lab group will turn in a report. A lab report which is one day late will have its grade docked 20%. The grade will be docked an additional 10% for each week late.
- Lab reports that contain copied or plagiarized material will be given a zero. Lab reports for labs the student did not perform will be given a zero.
- Typewritten lab reports are preferred, neatly hand-written lab reports are also accepted. Illegible lab reports are unacceptable.
- You can turn in graphs on graph paper or printed out. Hand-drawn graphs on anything other than graph papers are unacceptable.

Attendance:

You are required to attend all the classes. If you must miss a lab due to an excused absences (illness,

emergency or pre-arranged absence), you should arrange to make up the lab during a different lab session that week (the week of your absence). You should contact both instructors before attending another lab section. No more than two labs can be done in other lab sections. By department rules, if you miss three or more classes you will receive a failing grade for the lab section. There is no way to make up the labs. Lab reports that are turned in for experiments which you did not attend/perform will not be graded. You are expected to be to class on time.

Laboratory Safety:

Experimental work can expose one to various kinds of hazards (electric shock, burns, cuts...), every person working in the laboratory should be situational aware of their surroundings so as to avoid possible injury. Be aware and reduce the risk of injury and/or damaging the equipment. Report any accident immediately.

Schedule:

2/7/2011-Orientation and oscilloscope DMS 209,210
2/14/2011-Mapping electric fields DMS 209
2/21/2011-Electrostatics DMS 209
2/28/2011-Ohm's law DMS 209
3/6/2011-EMF source/RC circuits DMS 210
3/13/2011-Elect. Equiv. of Heat/Mag. Induction DMS 208
3-27-2011-e/m experiment DMS 209
4/3/2011-Refraction DMS 209
4/10/2011-Thin lenses DMS 209
4/17/2011-Double-Slit Diffraction DMS 208
4/24/2011-Geiger-Muller tube DMS 208

Grading

90-100 A
80-89 B
70-79 C
60-69 D
Below 60 F

ADA: Any student wishing to apply for academic accommodations or adjustments is requested to inform the instructor, or contact the Disability Resource Center (DRC, Thompson, Suite 101, phone 784-6000) directly, as soon as possible to arrange appropriate actions. The DRC will be able to answer any questions regarding accommodations or adjustments.

Academic Success Services: For example, "Your student fees cover usage of the Math Center (784-443 or www.unr.edu/mathcenter/), Tutoring Center (784-6801 or www.unr.edu/tutoring/), and University Writing Center (784-6030 or www.unr.edu/writing_center/). These centers support your classroom learning; it is your responsibility to take advantage of their services. Keep in mind that seeking help outside of class is the sign a responsible and successful student."

Academic Integrity: All examinations, homework, and quizzes must be your own work: any act of plagiarism (cheating, piracy, theft, etc.). Plagiarism or otherwise obtaining grades under false pretenses" constitute academic dishonesty according to the code of this university. Academic dishonesty will not be tolerated and penalties can include canceling a student's enrollment without a grade, giving an F for the course or for the assignment. For more details, see the [UNR General Catalog](#).
